

Quick Overview

The October 2012 release of IHS Standards Expert continues to advance the functionality by adding new content and tools to the powerful capabilities of IHS Standards Expert.

This document focuses on tools to help you efficiently manage change in standards and to be able to customize the user experience within your organization's account.

Managing Changes to Standards

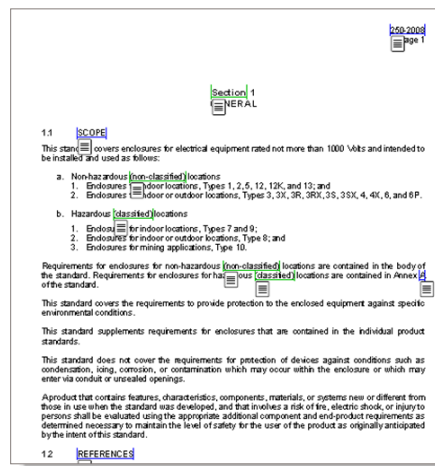

Redlines, or version comparison documents, help end users to quickly identify the changes made between versions of a standard, specification, or other document. A redline includes the complete text of the document, as it appears in the current published version, with changes from the previous version highlighted in context.

Documents with **Redline** versions will be indicated in search results within IHS Standards Expert.

1 - 6 of 6 Sort By: Relevancy

Search Results for:
Document Number: NEMA 250

#	Document Number	Status	Date	Title
1.	View NEMA 250 Redline Details History	Active	01/01/2008	Enclosures for Electrical Equipment (1000 Volts Maximum)
2.	View NEMA 250 Details History	Revised	01/01/2003	Enclosures for Electrical Equipment (1000 Volts Maximum)
3.	View NEMA 250 Details History	Revised	01/01/1997	Enclosures for Electrical Equipment (1000 Volts Maximum)
4.	View NEMA 250 Details History	Revised	01/01/1997	Enclosures for Electrical Equipment (1000 Volts Maximum)

How it works

The document includes all of the text of the standard you selected. Any changes from the previous version have been underlined and given a color-coded "flag" based on the type of change.

Managing Changes to Standards

Change Type for documents is information that easily identifies the “Type of Change” including Update Revision, Editorial and more.

Document Summary

Title(s):

There have been changes to the following documents for account: 5928429001

Alert From: Favorites

Document Number: IEEE 802.11AA
 Document Specified on List: IEEE 802.11
 Publication Date: 3/29/2012
 Title:
 Status: Active
Change Description: New Revision

NOTE: DO NOT RESPOND TO THIS EMAIL MESSAGE.

Customization Tools for Administrators

- My Account Options
 - User Information
 - User Preferences
 - Subscription Information
 - Purchase Tracking
- Administrator Options
 - Account Preferences
 - Shopping Cart Settings**
 - MyPublications Login
 - Manage Administrators
- Custom Collections
 - What's This?
 - Collection Status
 - Create Collection

Shopping Cart Settings allow Administrators to enable an Order Justification field, enable and name a Custom Data Field, and create a Custom Message within the Shopping Cart

Enable Order Justification (Gatekeeper Only): Yes No

Custom Field Name:

Custom Field Tooltip Description:

Custom Shopping Cart Message:

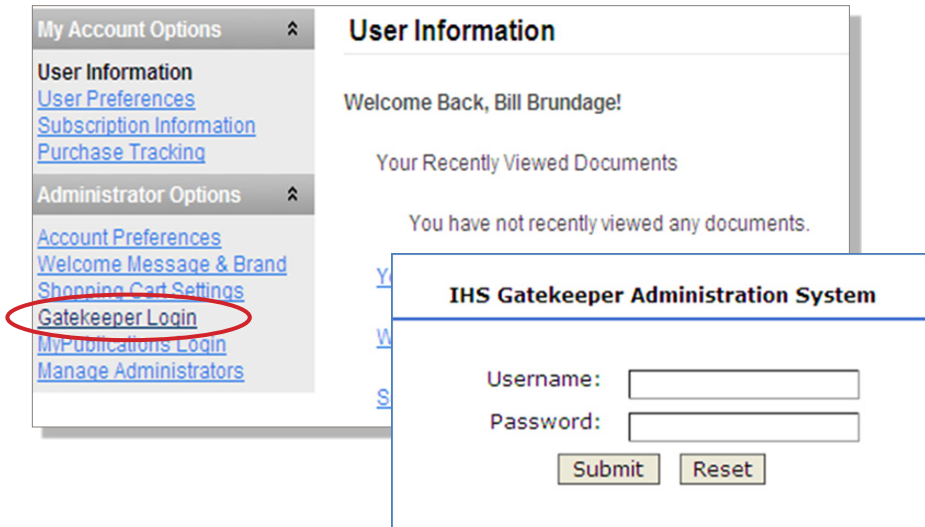

Qty	Item	Price	Discount	Discount Price	Total (USD)
1	FAA FAA-E-2356 REV A Date: 1972-07-28 Status: Active Language: English Media: Electronic Page Count: 28 RECEIVER, PORTABLE, ILS	\$28.00	\$0.00	\$28.00	\$28.00
				Discount:	- \$2.80
				Taxes:	\$0.00
				Shipping:	\$0.00
				Total (USD):	\$25.20

Order Justification(Required)

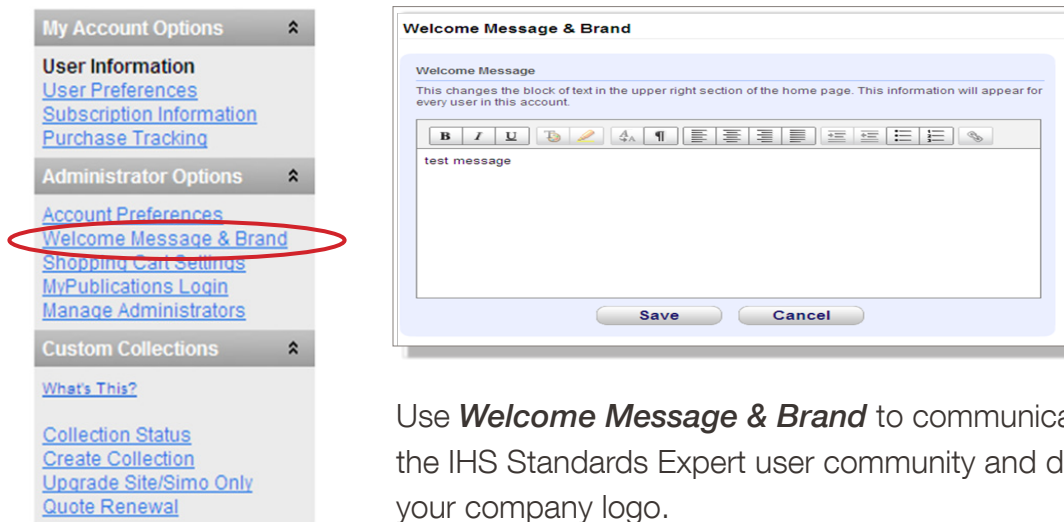

This is a Mandatory field when displayed and will be available to the Gatekeeper during the Approval process.

Customization Tools for Administrators

Gatekeeper Login provides Administrators and Approvers a link that will take them to the Gatekeeper login page.

The screenshot displays the user interface for an administrator. On the left, a navigation menu is visible with sections for 'My Account Options', 'User Information', 'Administrator Options', and 'Custom Collections'. The 'Gatekeeper Login' link under 'Administrator Options' is circled in red. To the right, the 'User Information' section shows a welcome message for 'Bill Brundage' and a list of 'Your Recently Viewed Documents'. A modal window titled 'IHS Gatekeeper Administration System' is overlaid on the page, containing a login form with fields for 'Username:' and 'Password:', and 'Submit' and 'Reset' buttons.

The screenshot displays the user interface for an administrator. On the left, a navigation menu is visible with sections for 'My Account Options', 'User Information', 'Administrator Options', and 'Custom Collections'. The 'Welcome Message & Brand' link under 'Administrator Options' is circled in red. To the right, the 'Welcome Message & Brand' configuration form is shown. It includes a 'Welcome Message' section with a text area containing 'test message' and a rich text editor toolbar. The form also has 'Save' and 'Cancel' buttons.

Use **Welcome Message & Brand** to communicate to the IHS Standards Expert user community and display your company logo.
